Introduction

The project allotted to our team is "BOOKING MANAGEMENTN SYSTEM".

- An online booking system is software which allows a potential customer to book and pay for an activity or service directly through our website.
- We designed 10 web pages which are login page, registration page, main/homepage, lost password, about us, contact us, payment, event, seat and terms & conditions.
- Register page contains user ID, Email, contact no., etc for user to register.
- Login page contains user ID and password to login into website.
- If a user forgot his/her password then Lost Password page is given through which he/she can reset the password.
- Home page contains logo of movies in which when we click on movie logo it will show the content and when we click on the title it will show the trailer of the movie. It also contains slider of advertisement, link of about us, contact us, events, logout etc.
- Event page contains several events which are .
- About us page contains details related to this website.
- Contact us page contains the contact details of website.
- Payment page contains payment details through which we can pay the amount.
- Seat booking page contains the selection option through which we can book the movie and seat we want.
- Terms and conditions page displays the rules and regulations of concern website.

Main web page Details Tags and Properties Used: -

1. <html> 2. <head> 3.<title>

4.<style>

Properties in CSS used:

- body=background,font-size;
- a:link,a:visited,a: hover,a:active
- myHeader=color,padding,text-align,background,position,box-shadow
- section=width,height,float,background,border-left,border-radius
- lefts=width,float,height,background,border-right,border-radius
- form=display,flex-direction
- div=marg-in-bottom
- grid-container=display,grid-template-columns,grid-template-rows,grid-gap,padding,border-radius
- grid-item=border
- grid-containers=display,grid-template-columns,grid-template-rows,grid-gap,padding,background,color,font-size,border-radius,box-shadow,marg-in-bottom
- payment-option-btn=color,marg-in,height,width,background-color,border,cursor

5.<script>

Javascript used to show the content in the box when picture is clicked:-

function myfunction1(),function myfunction2(),function myfunction3(),function myfunction4()

javascript to show error when option is not selected:-

function validate()

javascript of slideshow:

function showslides()

**6.<body> 7.<h1> 8.<a> 9.<center> 10.<div> 11. 12.<p> 13.<label>
14. 15.<input> 16.<select> 17.<button> 18.
**

Registration web page Details Tags and Properties Used: -

1. <html> 2. <head> 3.<title>

4.<style>

Properties in CSS used:-

- hero=height,width,background-image,background-position,background-size,position
- form-box=width,height,position,margin,background,background-position,background-size,padding,border
- myheader=background,position,box-shadow,color,padding,text-align,height
- input-field=width,padding,margin,border-left,border-right,border-top,border-bottom,outline,background
- submit-btn=color,margin,height,width,background-color,border,cursor

5.<script>

Manipulated with JavaScript: - function validate()

6.<body> 7.<div> 8.<h1>

9.<form>

Login web page Details Tags and Properties Used: -

1. <html> 2. <head> 3.<title>

4.<style>

Properties in CSS used:

- hero=height,width,background-image,background-position,background-size,position
- form-box=width,height,position,margin,background,background-position,background-size,padding,border myheader=background,position,box-shadow,color,padding,text-align,height
- input-field=width,padding,margin,border-left,border-right,border-top,border-bottom,outline,background
- submit-btn=color,margin,height,width,background-color,border,cursor

5.<script>

Manipulated with JavaScript:- function abc()

6.<body> 7.<div> 8.<h1> 9.<form> 10.</br> 11.<center> 12.<a> 13.<p>

Lost Password web page Details Tags and Properties Used: -

1. <html> 2. <head> 3. <title>
4. <style>

Properties in CSS used:

- hero=height,width,background-image,background-position,background-size,position
- form-box=width,height,position,margin,background,background-position,background-size,padding,border
- myheader=background,position,box-shadow,color,padding,text-align,height
- input-field=width,padding,margin,border-left,border-right,border-top,border-bottom,outline,background
- submit-btn=color,margin,height,width,background-color,border,cursor
- check-box=margin;

5. <script>

Manipulated with JavaScript:- function validate()

6. <body> 7. <div> 8. <h1> 9. <form> 10. </br> 11. <a>

About us web page Details Tags and Properties Used: -

1. <html> 2. <head> 3. <title> 4. <style>

Properties in CSS used:

- myHeader=padding, text-align, background, position, box-shadow
- hero=height, width, background, position
- box=width, height, margin, border, padding

5. <body> 6. <div> 7. 8. <u> 9. <p> 10. <center> 11.

Payment web page Details Tags and Properties Used: -

1. <html> 2. <head> 4. <style>

PROPERTIES IN CSS USED: -

- Body= background, background-size, width, height
- Wrapper=position, top, left, transform, width, height
- Checkout_wrapper=width, height, display
- checkout_wrapper .product_info= width, background, border-top-left-radius, border-bottom-left-radius, position
- checkout_wrapper .product_info img= width, margin-top, margin-left
- checkout_wrapper .checkout_form= width, background, padding, border-top-right-radius, border-bottom-right-radius
- checkout_wrapper .product_info .content=text-align, margin-top, color, text-transform
- checkout_wrapper .product_info .content h3=font-size, line-height: 18px;, letter-spacing
- checkout_wrapper .product_info .content p=margin-top, font-size
- checkout_form p=margin-bottom, font-size, text-transform
- checkout_form .details .section=margin-bottom
- checkout_form .details .section input[type="text"]=width, padding, border
- checkout_form .details .section input[type="text"]:focus=border
- checkout_form .details .section.last_section=display, justify-content
- checkout_form .details .section.last_section .item=width
- checkout_form .details .btn=background, padding, border-radius, text-align, margin-top
- checkout_form .details .btn
- a=color, letter-spacing, display

5. <script>

Manipulated with JavaScript: Function validate()

6.<body> 7.<div>

Seat web page Details Tags and Properties Used: -

1.<html> 2.<head> 3.<title>

4.<style>

Properties in CSS used: -

- Body=font, background-image
- Header-btn=text-decoration, border-radius, padding, float, margin-top, margin-left, color, background, font-weight
- Header-bac=text-decoration, border-radius, padding, float, margin-top, margin-left, color, background, font-weight
- Movie-container=margin
- Movie-container select=background-color, border, border-radius, font-size, margin-left, padding
- Seat=background-color, height, width, margin, border-top-left-radius, border-top-right-radius
- Row=display
- Seat.selected=background-color
- Seat.occupied=background-color
- Seat:nth-of-type(2)=margin-right
- Seat:nth-last-of-type(2)=margin-left
- Seat:not(occuoied)=cursor, transform
- showcase .seat:not(.occupied)=cursor, transform
- Showcase=background-color, padding, border, color, list-style-type, display, justify-content
- showcase li=display, align-items, justify-content, margin

6.<script>

Manipulated with JavaScript: Function validate()

7. <body> 8.<div> 9.<a> 10. 11. 12.<p>

Event web page Details Tags and Properties Used: -

1.<html> 2.<head> 3.<title>

4.<style>

Properties in CSS used:

- Grid-container=display, grid-template-columns, grid-template-rows, grid-gap, background, padding Grid-item=background, border, padding, font, text-align
- Body=font-size, background-color
- myheader=padding, text-align, background, position, box-shadow

8.<body> 9.<div> 10.<a> 11.<h1> 12.<center>

Contact us web page Details Tags and Properties Used: -

1.<html> 2.<head> 3.<title>

4.<style>

Properties in CSS used: -

body=min-height, background, background-size, justify-content, align-item, contact section, contact-info, contact form

5.<script>

JavaScript used: Function validate()

6.<body> 7.<a> 8.<div>

Terms web page Details Tags and Properties Used: -

1.<html> 2.<head> 3.<title> 4.<script> 5.<style>

Properties in CSS used:

- myheader=color, padding, text-align, background, position, box-shadow
- p2=font-family, text-indent, color, font-size
- hero=height, width, background, position
- box=width, height, position, margin, background, padding, display

6.<body> 7.<div> 8. 9.<u> 10.<a> 11.<p> 12.<h1>

Screenshot of register page: -

A screenshot of a web browser displaying the registration page. The page has a dark, atmospheric background image of a street at night with colorful lights and a mural of a dinosaur. A white registration form is centered on the page. The form has a pink header with the word "REGISTER" in black. Below the header, it says "ENTER YOUR FOLLOWING DETAILS TO REGISTER WITH US:". The form contains six input fields: "Enter User Id:" (with "rahul" entered), "Enter Email Id:" (with "abc@gmail.com" entered), "Enter contact no:", "Enter pincode:", "Enter password:", and "Enter confirm password:". At the bottom of the form is a purple button labeled "REGISTER". The browser's address bar shows the file path "D:/2nd%20semester/csa326/pr/registration.htm".

Screenshot of login page: -

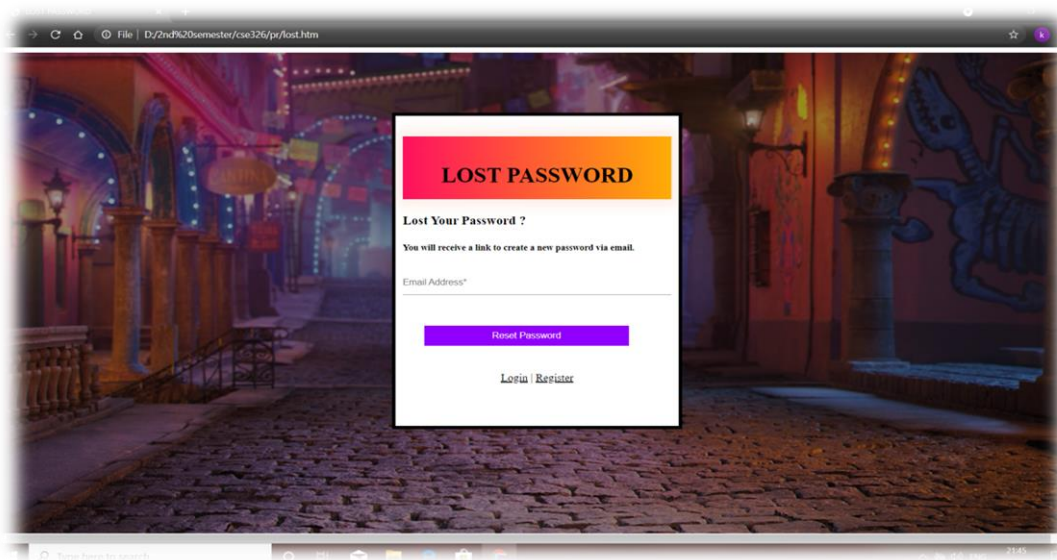

A screenshot of a web browser displaying the login page. The background is the same dark, atmospheric street scene as the register page. A white login form is centered. The form has a pink header with the word "LOGIN" in black. Below the header, there are two input fields: "User Id" and "Enter password". Below these fields is a checkbox labeled "Remember password". At the bottom of the form is a purple button labeled "LOGIN". Below the button, there is a link that says "LOST PASSWORD?". At the very bottom of the form, it says "Not a Bookmyshow user? then [REGISTER](#)". The browser's address bar shows the file path "D:/2nd%20semester/csa326/pr/login.html".
